Products & Services

The companies of the STAUFF Group develop, produce and distribute line components and hydraulic accessories for mechanical and plant engineering and industrial maintenance. STAUFF's product range currently includes around 50,000 standard components in ten product groups as well as a large number of special and system solutions that are implemented according to customer specifications or based on in-house developments.

Via the STAUFF Digital Platform at www.stauff.com, commercial customers and users can not only obtain comprehensive information about the more than 50,000 components available from stock, but also purchase them directly online without the need for time-consuming registration.

Digital platform

The digital platform www.stauff.com offers the possibility to order STAUFF articles online, just like private online shopping.

Essential functions of the Platform

Availability, prices and delivery dates in real time STAUFF Digital
Individual price conditions for existing customers
View order status and track shipments at any time
Uncomplicated product search
Detailed product information
Online CAD database
Assembly instructions
Information about new products

Request products online

Request products that cannot be ordered directly online and receive an individual offer. This also gives you the opportunity to request your individual offer. Please feel free to add further information and files (e.g. drawings) to your enquiry. (e.g. drawings) or state your order number so that the desired products can be added to the enquiry for ordering.

Quick order

Ordering is now even faster and easier!
As a registered customer, simply upload up to 300 items as an Excel or CSV file and add them to the shopping basket with one click.
Your desired delivery date will be taken into account

Live query of all orders with current status

Log in to your customer account and view information about orders:
All information about order and shipping details, current status, shipping method, shipping company, tracking number and invoices as well as delivery notes as PDF files for download. Orders received by STAUFF via other channels as well as webshop orders are displayed. These can even be reordered with just one click.

Conversion of other designations

Simply enter the manufacturer's designation in the search function on the platform to find the right STAUFF product.
